

OTTO

OTTO is a compact and incredibly versatile rocking stool that stands out with its innovative approach to sitting. Its ergonomic design encourages active sitting, supporting the natural movement of the body and enhancing comfort of use. OTTO is not just an ordinary stool — its gentle rocking adds an element of playfulness and relaxation, allowing the user to break free from a static posture. The design of OTTO offers functionality with lightness and character, making it a perfect fit for both modern, minimalist interiors and cozier spaces — from homes and offices to cafés and public areas. Perfect for indoor and outdoor. Thanks to its stackable feature, the stool is practical and easy to store, making it an ideal solution for places where flexibility and space-saving matter.

COLOR RECYCLING PROGRAM

LOOPE redefines design - pioneering 100% circular technology to craft thoughtful, timeless, furniture solutions for a better life and a sustainable future.

Technology and material innovation are at the heart of LOOPE, offering endless possibilities. Plastic is often controversial, but our project proves that it can be used responsibly. We manufacture furniture from pre-consumer recycled polyethylene, ready to be recycled repeatedly under controlled conditions. Sourced from fully valuable material left over from the production of planters, kayaks and other large-format elements made in our factory in Poland. This material returns to circulation in the form of durable furniture, instead of ending up as waste.

With full control over the recycling process, we ensure the polyethylene remains uncontaminated and, under controlled conditions, retains its key properties. This exceptional material is resistant to weather, scratches, breaks, and impacts. It's flexible, soft, yet incredibly durable extending the life of each piece.

ADDITIONAL INFORMATION

MAINTENANCE

- Products can be cleaned with warm water and a mild detergent.
- Avoid using harsh cleaning agents that may damage the surface.

TEMPERATURE RESISTANCE

- High-quality polyethylene retains its properties in temperatures ranging from -30°C to +60°C.

WARRANTY

- LOOPE is more than just furniture - it's a thoughtful system that redefines consumption.
- After five years, customers can return their furniture, and we'll transform it into a new product. This way, we extend its life and reduce plastic production. Warranty covers color and shape deformation.
- The color of the furniture may differ slightly from the visualization, which does not constitute a defect in the product and cannot be the basis for a complaint. LOOPE furniture is made of recycled material, thus the inclusions of other colors are normal and do not affect the functional characteristics.
