

ANIMA

Meaning “soul” in Latin, ANIMA explores the balance between skeletal strength and organic grace through a sculptural dining collection of chairs and a table. Inspired by biomorphic elegance and the symmetry of nature, Karim moves away from conventional vertical legs, instead creating a centrally rooted four-point base that appears to bloom from a single core. The chairs’ wasp-waist silhouettes and the table’s branching structure embody his philosophy of sensual minimalism - where every curve carries both beauty and purpose. The chair’s petal-like backrest and slender arching legs provide ergonomic comfort with a light visual footprint. The table is defined by a refined HPL surface resting on a powerful quadrilateral star base, where branching geometry reinforces the collection’s language of organic movement and structural elegance.

COLOR RECYCLING PROGRAM

LOOPE redefines design - pioneering 100% circular technology to craft thoughtful, timeless, furniture solutions for a better life and a sustainable future.

Technology and material innovation are at the heart of LOOPE, offering endless possibilities. We manufacture furniture from pure UV-stabilized polyethylene, ready to be recycled repeatedly under controlled conditions. This material returns to circulation in the form of durable furniture, instead of ending up as waste.

With full control over the recycling process, we ensure the polyethylene remains uncontaminated and retains its key properties. This exceptional material is resistant to weather, scratches, breaks, and impacts. It's flexible, soft, yet incredibly durable extending the life of each piece.

ADDITIONAL INFORMATION

MAINTENANCE

- Products can be cleaned with warm water and a mild detergent.
- Avoid using harsh cleaning agents that may damage the surface.

TEMPERATURE RESISTANCE

- High-quality polyethylene retains its properties in temperatures ranging from -30°C to $+60^{\circ}\text{C}$.

WARRANTY

- LOOPE is more than just furniture - it's a thoughtful system that redefines consumption.
- After five years, customers can return their furniture, and we'll transform it into a new product. This way, we extend its life and reduce plastic production. Warranty covers color and shape deformation.
- The color of the furniture may differ slightly from the visualization, which does not constitute a defect in the product and cannot be the basis for a complaint.
