

SWAY

Redefining outdoor relaxation, SWAY Chaise embodies Karim's signature "sensual minimalism". It serves as both a functional piece of furniture and a contemporary sculpture. Inspired by the rhythm of Mediterranean waves, the chaise was conceived as an extension of the human body. Manufactured through LOOPE's own rotocycling process, SWAY becomes a seamless monolithic piece, free of visual interruption. The contoured S-frame offers intuitive lumbar support and a weightless reclining experience. Designed for patios and poolside environments, the chaise is 100% recyclable and resistant to salt, chlorine, and fading. Its self-draining surface ensures it dries quickly after water or summer rain. With SWAY, Karim and LOOPE invite you to stop sitting and start flowing - turning every sun-lit moment into a poetic pause.

COLOR RECYCLING PROGRAM

LOOPE redefines design - pioneering 100% circular technology to craft thoughtful, timeless, furniture solutions for a better life and a sustainable future.

Technology and material innovation are at the heart of LOOPE, offering endless possibilities. We manufacture furniture from pure UV-stabilized polyethylene, ready to be recycled repeatedly under controlled conditions. This material returns to circulation in the form of durable furniture, instead of ending up as waste.

With full control over the recycling process, we ensure the polyethylene remains uncontaminated and retains its key properties. This exceptional material is resistant to weather, scratches, breaks, and impacts. It's flexible, soft, yet incredibly durable extending the life of each piece.

ADDITIONAL INFORMATION

MAINTENANCE

- Products can be cleaned with warm water and a mild detergent.
- Avoid using harsh cleaning agents that may damage the surface.

TEMPERATURE RESISTANCE

- High-quality polyethylene retains its properties in temperatures ranging from -30°C to +60°C.

WARRANTY

- LOOPE is more than just furniture - it's a thoughtful system that redefines consumption.
- After five years, customers can return their furniture, and we'll transform it into a new product. This way, we extend its life and reduce plastic production. Warranty covers color and shape deformation.
- The color of the furniture may differ slightly from the visualization, which does not constitute a defect in the product and cannot be the basis for a complaint.
